Additional information:

Christiane Fiorin was an invited speaker to the 4th Interdisciplinary PhD Forum with International Participation (16-19 May 2023, Sandanski), organized by the Training center of the Bulgarian Academy of Sciences and the Career center of the TC-BAS. Her presentation on publishing possibilities in Elsevier editions was very interesting and useful for the audience. The participation in the forum and the communication with highly motivated young scientists stimulated the lecturer to organize with a pleasure the present webinar, in order to upgrade and diversify the information provided towards **“the optimization of searching of the most suitable publications for every scientist”**.

In this 45 minutes webinar session you will learn and review:

- How to take advantage of digital research with ScienceDirect
- How to use mixed sources (journals and books types in the same platform)
- How to gain time using “proposed articles” and “alarms”
- How to get more accurate results with Advanced Search
- How to use Topic Pages as a multidisciplinary tool

Elsevier is a leader in information and analytics for customers across the global research and health ecosystems.

Christiane Fiorin is a **ScienceDirect's Book Expert Advisor**. She holds a bachelor's degree in communications and an MBA in marketing.

After working as a marketing manager for six years for Elsevier's South American Sales team, she accepted the challenge of covering the electronic book area throughout LATAM, the Middle East, Africa and Eastern Europe.

We are completely sure, that the webinar will be very useful for the PhD students and young scientists. A possibility for acquirement of new applied knowledge in science communication, by means of the access to high impact scientific editions will be presented. The event is free of charge, but a registration by means of the above cited Zoom platform link is required.
